

# Basic Wildlife Rehabilitation

Hosted by Living Sky Wildlife Rehabilitation

Improving Wildlife Care Worldwide

## ● Course Description:

A two-day introductory course with lecture topics that include: introduction to wildlife rehabilitation, basic anatomy and physiology, intake and admission, fluid therapy, handling and physical restraint, nutrition, head and spinal trauma, zoonoses, housing and criteria, for release and euthanasia.

## ● Wildlife Rehabilitation: A Comprehensive Approach

An indispensable resource for all rehabilitators of any experience, this book published by IWRC is included in the price of the two-day class, along with Minimum Standards for Wildlife Rehabilitators.

● Includes a half-day lab to practice techniques in: gavage, physical restraint, intramuscular and subcutaneous injections, basic physical examination, basic bandaging, and limb immobilization. (Full course earns 15 Continuing Education Credits)

**Where:** University of Saskatoon — Saskatoon, SK

**When:** April 4-5, 2020

**Cost:** IWRC Members \$205\* Non-members \$260\*

\*Price varies with book option and all prices are in USD
