### **Educational Programming Description**

We have three trained Environmental Educators who work with different species to provide community-based educational programming with wildlife.

We come to you with one of our Wild Ambassadors to support understanding of wildlife ecology and encourage peaceful co-existence with our wild neighbours.

Topics can be curriculum-focused to support your classroom teachings.

**Description:** 30-45 minute presentation and an opportunity to meet the Ambassador up close & personal

**Cost:** \$100 per classroom

For out of town, there is an additional \$.50/km for mileage.

#### **Objectives:**

1. To increase awareness and sensitivity towards all wild creatures
2. To provide information about the interconnectedness of all living things
3. To encourage tolerance of, & living in harmony with wildlife

**-By providing the opportunity to meet an Ambassador for our wild neighbours.**

### **Curriculum Areas by Grade & our corresponding programming**

#### **Grade 1 – Needs & Characteristics of Living Things**

Bat Ecology  
Crow Ecology  
Raptor ecology

#### **Grade 2 – Animal Growth & Change**

Bat Ecology  
Crow Ecology  
Raptor ecology

#### **Grade 3 – Plant Growth & Change**

Grade 4 – Habitats & Communities

Bat Habitats & Adaptations  
Crow Habitats & Adaptations  
Raptor Habitats & Adaptations  
Owl Pellet Dissection

Grade 5 –

Grade 6 - Diversity of Living Things

Bat Ecology, Habitats & Adaptations  
Crow Ecology, Habitats & Adaptations  
Raptor Ecology, Habitats & Adaptations  
Owl Pellet Dissection

Grade 7 – Interactions within Ecosystems

Bat Ecology, Where they fit in the Ecosystem  
Crow Ecology, Where they fit in the Ecosystem  
Raptor Ecology, Where they fit in the Ecosystem  
Owl Pellet Dissection

Grade 8 – Natural & Human Induced Changes to Water Ecosystems

Benefits of Beavers Presentation – No Ambassador
