WILDLIFE REHABILITATION

ABOUT US

We give injured and orphaned wildlife a second chance. We rehabilitate birds and small mammals so they can return to the wild.

Increasing Need Annually

Number of Animals in Care

Donations of time, money or specifically needed items can support this work greatly.

SUMMER INTERNSHIPS

Actively learn about rehabilitating wildlife over the summer!

Assist and educate the public about wildlife.

For an application, contact us at:

LSWR@sasktel.net

OUR VISION *"A balanced relationship with our wild neighbours based upon respect and appreciation."*

OUR MISSION *"To provide a safe place for injured and orphaned wild animals to grow and mend until they can return to their natural habitat while encouraging public tolerance and understanding of wildlife."*

OUR PHILOSOPHY *"If you care enough to rescue and bring in the animal, we will put in the time and energy to rehabilitate it." We therefore accept all wild animals brought to us, regardless of age, species, colour, attitude, origin, injury, or need.*
