

Educational Programming Description

We have three trained Environmental Educators who work with different species to provide community-based programming with wildlife.

We come to you with one of our Wild Ambassadors to support understanding of wildlife ecology and encourage peaceful co-existence with our wild neighbours.

Topics can be curriculum-focused to support your classroom teachings.

Description: 30-45 minute presentation and an opportunity to meet the Ambassador up close & personal

Cost: \$100 per classroom

For out of town, there is an additional \$.50/km for mileage.

Objectives:

1. To increase awareness and sensitivity towards all wild creatures
2. To provide information about the interconnectedness of all living things
3. To encourage tolerance of, & living in harmony with wildlife

-By providing the opportunity to meet an Ambassador for our wild neighbours,

Curriculum Areas by Grade & our corresponding programming

Grade 1 – Needs & Characteristics of Living Things

Bat Ecology
Crow Ecology
Ground Squirrel ecology

Grade 2 – Animal Growth & Change

Bat Ecology
Crow Ecology
Ground Squirrel ecology

Grade 3 – Plant Growth & Change

Grade 4 – Habitats & Communities

Bat Habitats & Adaptations
Crow Habitats & Adaptations
Ground Squirrel Habitats & Adaptations
Owl Pellet Dissection

Grade 5 –

Grade 6 - Diversity of Living Things

Bat Ecology, Habitats & Adaptations

Crow Ecology, Habitats & Adaptations

Ground Squirrel Ecology, Habitats & Adaptations

Owl Pellet Dissection

Grade 7 – Interactions within Ecosystems

Bat Ecology, Where they fit in the Ecosystem

Crow Ecology, Where they fit in the Ecosystem

Ground Squirrel Ecology, Where they fit in the Ecosystem

Owl Pellet Dissection

Grade 8 – Natural & Human Induced Changes to Water Ecosystems

Benefits of Beavers Presentation – No Ambassador
